About us

Welcome to the world of SmartIQO, where brilliance meets sophistication. Immerse yourself in the essence of Illuminating Smart Living with our avant-garde lighting solutions. Indulge in the seamless integration with the SmartIQO app, unlocking a realm of features like enchanting voice control, precision timer functions, personalized scheduling, and exquisite ambient customization. Experience the epitome of lighting luxury showcased in our catalog, where innovation and style converge to transform your home into a sanctuary of refined elegance.

Benefits of Smartiqo LED Products :

- No UV & Radiation.
- No more bugs around lights (LEDs don't attract insects).
- Assurance for delivering quality products.
- Long Life LED Product (Approx 50000 Hours).
- Energy efficiency of 80%-90% when compared to traditional lighting and conventional light bulbs.
- LED lights are free of toxic chemicals
- LED's contain no mercury or other hazardous substances

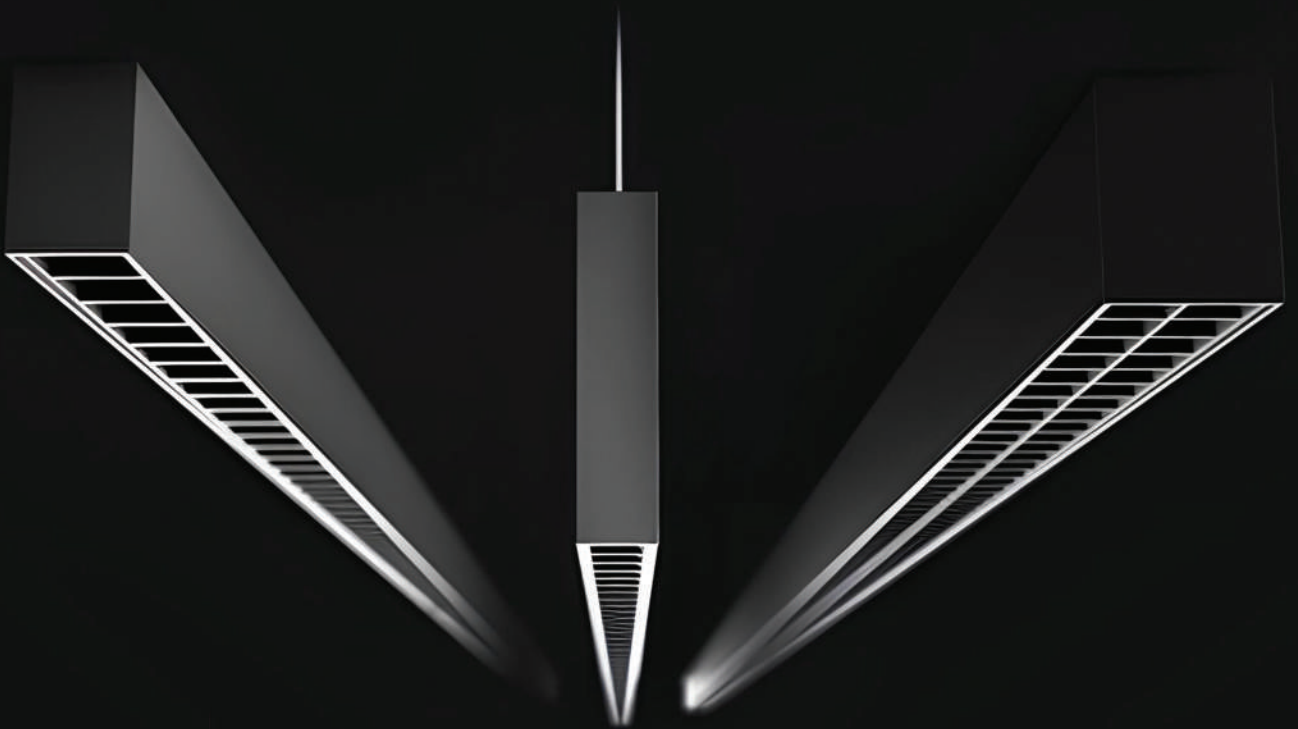

SMARTIQO Differentiating Factors

LED Driver / Controller : Many times 90% LED Lights fail, not because of faults in lighting fixture but because of faults in the Driver/Controller. Driver [Controller are the heart of Complete LED Light Fixture. Reliability and Efficiency of the overall product is dependent of the quality of driver. Our Drivers have specific features like High Efficiency, Power factor, Open circuit protection, short circuit protection, voltage fluctuation tolerances etc.

Thermal Management of LED : LED stated life is around 50000 hours. If the heat is not well managed, its life will reduces drastically. Hence we choose the right material of Heat sinks for proper heat dissipation and consequently high durability products.

Aesthetics : The look and Quality of our products creates aesthetics value in the minds of customers.
